

EBMUD PSL Program Contractor List

This list is provided as a courtesy resource for property owners seeking to hire a contractor to perform the inspections required by the Regional Private Sewer Lateral (PSL) Program. The list is updated on an ongoing basis and refreshed annually.

Contractors included on this list have voluntarily certified below services they provide and have attested they will comply with [Regional PSL Program procedures](#). The list is not an exclusive list of contractors eligible to perform PSL inspections, and contractors are not required to be included on the list to perform PSL inspections. Inclusion on the list does not reflect a contractor's skills or qualifications. EBMUD does not endorse any particular contractor and makes no representation or warranty regarding any contractor's skills or qualifications.

Contractors that fail to adhere to Regional PSL Program procedures may have their ability to schedule inspection appointments suspended. EBMUD separately maintains a list of contractors that are presently ineligible to conduct PSL inspections. You are responsible for ensuring that the contractor you hire is eligible to perform the work.

NOTE: For the best results, we recommend getting quotes from at least three (3) contractors.

****CAP/CAWP documentation for properties with over 1,000 feet of PSL.** Some contractors can complete the Condition Assessment Plan (CAP) and Corrective Action Work Plan (CAWP) required of large parcel groups. See the Guidelines for Parcels or Parcel Groups with Sewer Laterals Exceeding 1,000 Feet Guidelines at <https://www.eastbaypsl.com/doc/PSLParcel1000FeetGuidelines.pdf> for more information.
